5 Reasons Landlords Lose Money on Rental Properties

Slide-by-Slide Content

SLIDE	TEXT
1 (Cover)	**5 Reasons Landlords Lose Money on Rental Properties** — Swipe to stop bleeding cash →
2	**1. No rent tracking system** — You rely on memory or WhatsApp screenshots. Payments slip through the cracks.
3	**2. No payment proof on file** — Tenant says they paid. You say they didn't. No receipts = no proof.
4	**3. Late rent goes unchallenged** — You feel awkward chasing. So you wait. And lose ₹1000s every month.
5	**4. Tax time is a nightmare** — No organized records = missed deductions + hours wasted with your CA.
6	**5. Managing remotely is chaos** — NRI landlords or multi-city owners lose track without a system.
7	**The fix?** One app that tracks rent, sends auto-reminders, stores payment proof, and handles it all with AI.
8 (CTA)	**Dwella is launching soon.** Join the waitlist — link in bio. Follow @dwella_ai for early access.

WEDNESDAY

STATIC POST

Rent Receipt for HRA Exemption

On-Image Content

Format: Single infographic-style image (1080 × 1080)

Canva Design Specifications

- **Background:** #FFFFFF (white)
- **Top bar:** Thin indigo bar (#4F46E5), 40px height
- **Heading:** "RENT RECEIPT FOR HRA" — Bold, 40px, #1E1B4B, centered
- **Subheading:** "What your tenant actually needs from you" — Regular, 22px, #64748B

Checklist Section (green checkmarks, #10B981)

✅	Landlord's full name
✅	Landlord's PAN (if rent > ₹1L/year)
✅	Property address
✅	Rent amount per month
✅	Payment period (from — to)
✅	Revenue stamp (for cash payments)
✅	Landlord's signature

Common Mistakes Box

❌ Common Mistakes

- No PAN = tenant's HRA claim rejected
- Missing address = invalid receipt
- No date range = CA sends it back

Footer Bar

- Rounded rectangle, #4F46E5 background
- Text: "💡 Dwella auto-generates compliant rent receipts" — Bold, 18px, white
- Right side: Dwella logo (small, white)

Caption (Copy-Paste Ready)

> Tax season is coming. Your tenant will ask for rent receipts.
>
> Most landlords either:
> → Don't know what to include
> → Send a random PDF from Google
> → Make the tenant figure it out themselves
>
> Here's exactly what a valid rent receipt needs for HRA exemption 👆
>
> Pro tip: If annual rent exceeds ₹1,00,000 — your PAN is mandatory. Miss this and your tenant's HRA claim gets rejected. They'll blame you.
>
> Dwella generates compliant rent receipts automatically — correct format, every field filled, downloadable as PDF.

How to Calculate Rental Yield

Slide-by-Slide Content

SLIDE	TEXT
1 (Cover)	**How to Calculate Rental Yield on Your Property** 📊 — A landlord's most important number
2	**What is rental yield?** The annual return you earn from rent, as a % of property value. It tells you if your property is a good investment or dead money.
3	**The Formula:** Gross Rental Yield = (Annual Rent ÷ Property Value) × 100
4	**Example:** Property: ₹80,00,000 — Monthly rent: ₹25,000 — Annual: ₹3,00,000 — Yield: 3.75%
5	**Good yield in India?** 2–3% Below avg 🔴 | 3–4% Average 🟡 | 4–5% Good 🟢 | 5%+ Excellent ⭐
6	**Net yield:** Subtract maintenance, property tax, insurance, vacancy months, repairs. Net = (Rent - Expenses) ÷ Value × 100
7	**Improve your yield:** Price at market rate • Reduce vacancy • Furnish to charge premium • Track every payment
8 (CTA)	**Dwella tracks your rent automatically** so you never lose yield to missed payments. Waitlist — link in bio.

Your rental property might be losing you money — and you don't even know it.

Most Indian landlords have no idea what their rental yield is.

They bought a flat, found a tenant, and hope for the best.

But here's the thing:
If your yield is below 3%, a fixed deposit is outperforming your ₹80 lakh property.

Swipe through to learn:
→ The exact rental yield formula
→ What's a "good" yield in Indian metros
→ How to improve it starting today

Save this. Run the numbers on your property tonight 📊
